PHILADELPHIA.

Destructive Fire in Camden—Coal Trade, &c.

Correspondence of the Tribune.

PHILADELPHIA, Friday, June 27.

A refreshing thunder storm visited our city this afternoon.

A destructive conflagration occurred in Camden, N. J., last night about 10 o'clock. About a dozen buildings were consumed. The office of the *Camden Democrat* was burned out. Two of the same men were severely injured during the fire. None of our friends crossed the river for a week good reason—they couldn't get across. The Jersey folks have not yet recovered from some of our company, and they boldly assert that their town should be allowed to burn down before they would allow a single Philadelphia fire company to render service. They are probably right. Of two evils, they wisely choose the least. The fire last night was that of an incendiary, and it is reported that certain kindred spirits of the rowdies of the city, who were recently arrested at Red Bank, for robbing had a hand in it, for their purpose is to release their friends, if they have to accomplish their purpose in a blaze.

The Hyde failure in Liverpool is not so extensive as was stated, and the property will pay its debts to 17s on the pound.

The Money market was close to-day among the stock operators, who had loans on call, the Banks having called in many such loans in preparation for their quarterly report. First-class paper is 6*1/2* per cent. Loans on call, 6*1/2* per cent.

Edward D. Yates, employed in the Post Office here, was arrested last evening charged with embezzeling a letter containing money. The prisoner is said to be confined to-day. There is but little evidence of his guilt.

The COTTON market is firm, and there is moderate inquiry. Bush is dull, and has declined. The Cotton market is very firm. Common brands are held at \$4 25 #/lb. The market is firm, under our notes. The sales for City consumption are limited within the range of \$4 25-\$4 75 for common and extra brands. In RYE FLOUR and CORN MEAL no sales have been reported. The market is firm, and the Pima's (Iowa) Wheat at \$1 92 bushel. Several small lots of RYE sold at 71 cents. CORN continues in good demand, and 1,000 bushels Yellow sold at 63 cents admt. Oats are steady, sales of 1,000 bushels good. Southern at 43 cents admt. WHISKY—Prices are firm, at 40 cents admt, and 23 cents

Gambling Suppression.

Correspondence of the Tribune.

ALBANY, Thursday, June 26.

As the hour approaches for final action in the Senate on the bill for the More Effectual Suppression of Gambling, its enemies grow more determined and desperate in their efforts to secure its defeat.

"No rogue e'er felt the halter draw With good opinion of the law."

Hence it is easy to account for the persistent and unscrupulous resistance by all means, whether good or ill, to prevent the legal suppression of the immorality and frauds of gambling.

The city is full of gamblers and swindlers of every name and grade, not only from your City but from all parts of the States.

They may be seen, now and then, arm in arm with the weaker brethren of the Assembly, or often with more respectable lobby members, among whom may be named a pious brother from Troy, who has been very thick for these two weeks with the Ryders clique of lobby-men. It is easy to see their plots and counterplots. To-day we have been informed that in New-York a fund of many thousand dollars has been pledged among the gamblers to insure the defeat of this bill. This fact will explain the extreme liberality from certain quarters, extended to many of the members of the Assembly, lately, in the shape of suppers, rides, entertainments and the like grateful favors.

No honest means will be omitted to defeat that law, and all who know the parties in opposition will naturally expect to see some means not quite so honest put in use, if not, they are destined to be disappointed. Yesterday, to cap the climax, one who had been elected to the Legislature on the 18th, and had been ordered to return again on the 18th, on search, it was found "nowhere," so that the Clerk had no difficulty in engrossing another. Won't these thieves be happily disappointed to find that the bill is yet alive?

The Directors of the East Tennessee Bank have filed bills against Mr. Fiske, the principal stockholder in the Bank, to prevent him from casting the votes of individuals to whom he had transferred stock. Mr. Fiske in turn filed bills against the Directors.

The sporting gentlemen had better remain in the seclusion of their clubs, and not seek too wide nootory, or attempts at bribery, and corruption, lest they experience a storm of indignation, such as their publishing rascality surely deserves.

It is hoped that neither the intimidation of threats nor the hope or receipt of reward will cause any Senator or Representative to swerve a hair from the line of duty to State and justice to blacklegs.

FIRE.

DR. BUSHNELL'S CASE.—The *Partisan* records that the troubles caused by the alleged heretical views of Rev. Dr. Bushnell, are by no means removed. Dr. Hawes, it seems, has asked for a letter of dismission from the Hartford Central Association on account of his doctrinal position on this question, and it is expected that the Fairfield West Association will withdraw fellowship from the Hartford Central, for the same reason.
